- All school owned devices will be used in accordance with the school's AUP and with appropriate safety and security measures in place. Under supervision, children have the use of both school owned laptops and iPads. Children log on to laptops with generic year group logins and save work to a general shared area created for students. Staff have access to this shared area to retrieve work. iPads are administered by a mobile device management platform, Cisco Meraki, on which basic restrictions are assigned on the device management profiles, but additional security is in place by manual configuration of restrictions on the iPads themselves, including age restriction and content settings, with a passcode to prohibit changing of the restrictions. Internet use on both device types is filtered by our Internet Service Provider, EIS, using their Lightspeed software package. Monitoring of internet usage is physically performed by staff and ongoing.
- Members of staff will always evaluate websites, tools and apps fully before use in the classroom or recommending for use at home.
- The school will use age appropriate search tools e.g. www.kiddle.co, following an informed risk assessment, to identify which tool best suits the needs of our community. Numerous such tools are freely available by simple searches online.

- The school’s decision regarding filtering and monitoring has been informed by a risk assessment, taking into account our school’s specific needs and circumstances.
- Changes to the filtering and monitoring approach will be risk assessed by staff with educational and technical experience and, where appropriate, with consent from the leadership team; all changes to the filtering policy are logged and recorded.
- The leadership team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate.
- All members of staff are aware that they cannot rely on filtering and monitoring alone to safeguard pupils; effective classroom management and regular education about safe and responsible use is essential.

7.3.2 Filtering

- The school uses educational broadband connectivity through Cantium, which employs Smoothwall as their preferred filtering system, and which blocks sites which can be categorised as: pornography, racial hatred, extremism, gaming and sites of an illegal nature.
- The school filtering system blocks all sites on the Internet Watch Foundation (IWF) list**.**
- Smoothwall filtering allows access / prohibits access to sites based on device IP Addresses**.**
- The school works with Cantium as needed to ensure that our filtering policy is continually reviewed.

Dealing with Filtering breaches

- The school has a clear procedure for reporting filtering breaches.
    - If pupils discover unsuitable sites, they will be required to immediately inform the attending member of staff and, if possible, take a screenshot or write down the URL and details of how the site was found.

        - Specific user logins and passwords will be enforced for all users. Staff use individually configured logins, whereas students use generic year group logins for use on laptops. iPads the school pool are not login-based.
    - All users are expected to log off or lock their screens/devices if systems are unattended.
    - Further information about technical environment safety and security can be found in the IT Security Policy, Staff AUP, Student AUP, and other similar reference material.

7.3.3 Password policy

- All members of staff will have their own unique username and private passwords to access school systems; members of staff are responsible for keeping their password private.
- For ease of use to prevent lesson time lost in setting up and logging onto to laptops using Wi-Fi, each year group is provided with their own unique username and password to be used by children to access the laptops.
- iPads do not use a login-based system. Individual apps used on iPads may use a log in based system, usually set up by the respective staff member facilitating the apps use. Where possible, children's username and password should not be their real names, but if unavoidable, all requirements under the GDPR should be adhered to.
