

## Year 4 Curriculum Term 6

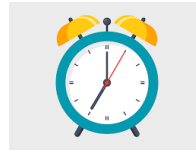

### PSHE

This term we think about **“Changing me”** We will talk about changes in life, such as transitions into new classes. There will also be some RSE content about the physical changes involved at puberty.

### Maths

This term we will cover a series of short units about time, shape, statistics and position and direction. We will also be revising calculation strategies and mental arithmetic, as well as practising and applying times tables knowledge.

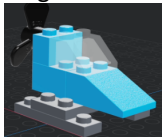

### Science

In science we will learn about the human digestive system, the different types of teeth and their functions, and food chains. We will have opportunities to predict and investigate using our scientific skills.

### Computing

Along with continuing to develop internet research skills, and reinforcing safe use of the internet this term, we will be exploring computer aided 3D design software.

### PE

On Wednesdays the children will be developing cricket skills, whilst our Monday lessons will focus on athletics and sports day events.

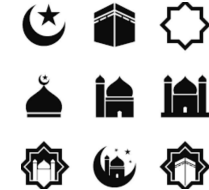

### Spanish

This term we will be developing the knowledge and skills necessary to perform a short role play in a Spanish café. The children will be able to say and write what they are ordering to eat or drink, alongside the use of general transactional language.

### RE

We will continue to learn about Islam this term, exploring the question, “What is the best way for a Muslim to lead a good life?”

### Music

This term we will have opportunities to listen to music of different styles, as we consolidate skills such as appraising, performing and improvising.

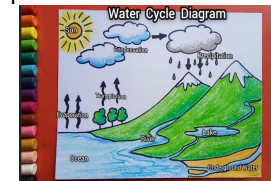

### English

We will continue with our class text, “The Land of Roar.” This is proving to be a popular story that has captured the imaginations of many. We will use a wide variety of other reading extracts throughout the term, which will continue to develop our **VIPERS** skills. Our writing will be a narrative unit based on the Disney short film “The Feast”

### Geography

This term we will be exploring Rivers. We will be recognising the features and courses of rivers, as well as how they are used. We will also be learning about the water cycle, and developing our map work skills. There will be an opportunity for some practical fieldwork in this unit.

### DT

Our unit of work on making story books will involve researching, designing and creating books with moving parts, such as levers and popups.
