

HISTORY

CREATE A STONE AGE WORLD

Travel back in time and make your own Stone Age creation!

You could make:

A Stone Age shelter

Build a model using sticks, cardboard, clay, LEGO or anything you can find.

Stone Age tools

Make pretend Stone Age tools from cardboard, clay or recycled materials. Label them and explain what they were used for.

A Stone Age scene

Create a shoebox model showing Stone Age people hunting, gathering food or living in their

ENGLISH

BRING THE STONE AGE BOY TO LIFE!

Use *Stone Age Boy* as inspiration and create something connected to the story.

You could:

Create a puppet show

Make Stone Age Boy and other characters from paper bags, card, socks or lolly sticks. Perform your own scene!

Design a Stone Age adventure map

Create a map showing where Stone Age Boy travels. Add places, obstacles and dangers.

Make a comic strip

Retell part of the story using pictures, speech bubbles and thought bubbles.

SCIENCE

BUILD A BODY!

Become a human body engineer and create something that teaches us about our skeleton or body.

You could make:

A moving skeleton

Create a skeleton from card, paper plates, lolly sticks or pasta. Use split pins or string to make the joints move!

A 3D body model

Use cardboard, clay, playdough or recycled materials to build a model showing the skeleton and/or organs.

Animal vs Human Skeletons

Make two models or drawings comparing a human skeleton with an animal skeleton. What is the same? What is different?.

Please bring your completed homework into school by:

Monday 12th October

We will be sharing, celebrating and showing off all of our fantastic creations!
